EDUCATION

LEARN Academy - Full Stack Web Development Student - San Diego, CA

07/2023 - 11/2023

- Experienced over 640 hours of direct coding experience constructing code
- Gained working proficiency of JavaScript, React, and Ruby while creating 3 full-stack programs implementing Test Driven Development and live sites
- Practiced effective communication through pair and mob programming
- Teacher's Assistant for an intensive weekend coding program called Jumpstart, where support and guidance was offered to classes consisting of more than 20 students

EXPERIENCE

Scientist.com - Junior Software Developer Intern

10/2023-11/2023

- Refactored and debugged over 100 legacy Ruby on Rails specs, enhancing maintainability and performance
- Seamlessly integrated the refined code into the primary live branch within the Scientist databases, while managing and closing 10 tickets via GitHub projects
- Developed and integrated 5 new spec files into the live code base to enhance test coverage and ensure the reliability of software applications, following test-driven development best practices

Central Standard Brewing - Shift Manager | Bartender - Wichita, KS 03/2018 - Current

- Supervised a team of 3-7 bartenders by delegating tasks based on individual strengths, optimizing operational efficiency, and staff productivity keeping labor costs at or below target
- Led a cross-functional team in implementing process improvements, resulting in a 30% reduction in errors and a 20% increase in overall quality
- Coordinated customer service at large 300 person + events, maintaining minimal wait times and ensuring a high level of guest satisfaction
- Managed various departments including the kitchen, floor, and bar, ensuring rapid distribution of food and drinks, resulting in improved overall service quality
- Used the Clover point of sale system for over 5 years, handling order transactions, inventory

updates, and various operational tasks to support smooth business operations

Wine Dive - Shift Manager | Head Bartender - Wichita, KS

07/2012 - 09/2019

- Managed a 5-member bar staff in a high-energy setting, demonstrating exceptional multitasking abilities and maintaining top-quality service even under high-pressure circumstances • Streamlined budget allocation process, resulting in a 15% reduction in unnecessary expenses and increased overall profitability
- Identified opportunities to enhance the guest experience by implementing personalized service, such as remembering guest names and orders, ensuring preferences were anticipated, resulting in dozens of positive reviews and a boost in revenue
- Utilized the Aloha point of sale system for over 10 years, encompassing order processing, inventory management, contributing to efficient restaurant operations
